

Reviewing process-details:

The journal *Discussiones Mathematicae Differential Inclusions, Control and Optimization* publishes high-quality double-blind refereed original papers.

REFEREE EVALUATION FORM

PAPER : "" by

(1) Research results

Excellent work, (significant, good) contribution

Solid work, good contribution

Publishable, (satisfactory, poor) contribution

Shallow

(2) Concepts and methods

New concepts and methods

Difficult but standard methods

Elementary but novel

Straightforward, relatively simple

(3) Interest

(Extremely, very) interesting

Very limited

Uninteresting

(4) Clarity

Good prepared and clearly written

Satisfactory style

Improvement is necessary

Poorly written

(5) Recommendation

Very good quality, publication recommended

Good quality, publication (not) recommended

Poor quality, rejection

Revision required to determine final quality

(6) Revision

Ready as is

(Minor, Major) revisions, (no) further review necessary

COMMENTS (*must be attached on separate sheet*)

I have received the manuscript "" by from the **Discussiones Mathematicae Differential Inclusions, Control and Optimization**.

_____ I will referee the paper .

_____ I cannot referee the paper, and I am returning it with the following

suggestions for referees:
